

REIGN OF TERROR IN MARTINIQUE.

Armed Bands of Robbers Roaming the Island
—Relief Funds Here Growing Rapidly.

(Copyright, 1902, by the Press Publishing Co., New York World.)
(Special Cable Dispatch to The Evening World.)

ST. MARIE, Martinique, May 15, by courier to Port de France, Martinique, May 16, via Paris.—In company with Ferdinand Clerk, a millionaire planter, I travelled across the island of Martinique to-day. We had special relays of horses and carriages and covered sixty miles in northern and eastern portion of the island.

We were the first persons to visit the region since the eruption of Mount Pelee. St. Marie is on the eastern side of the island, about fifteen miles east of St. Pierre. The distance is twice that by road.

THE COUNTRY THROUGH WHICH WE TRAVELLED IMMEDIATELY AFTER LEAVING ST. PIERRE IS NOT POLICED AND BANDS OF NEGRO ROBBERS ARE TERRORIZING THE NATIVES, BURNING AND PILLAGING.

ALL PERSONS ARE GOING ARMED TO PROTECT THEMSELVES FROM THE ROBBERS, WHO HAVE COMMITTED NUMEROUS ASSAULTS AND HAVE NO FEAR OF LEGAL PUNISHMENT. MEN HAVE BEEN KILLED IN SEVERAL PLACES, CANE FIELDS AND PLANTATIONS HAVE BEEN BURNED AND HOUSES THAT HAVE BEEN DESERTED BY THE OWNERS HAVE BEEN LOOTED BY THE ROBBERS.

We saw hundreds of refugees hastening to Port de France. The inhabitants of the region east and north of St. Pierre fear another eruption of Mount Pelee and are hurrying to safety. Every one expects a repetition of the outbreak of last week.

In sections of the island south of St. Marie and east of Port de France the inhabitants are going about their usual duties, and there were no signs of destitution. A slight coating of ashes was noticeable everywhere. Portland cement, and a chemical analysis shows that they are practically the same.

Fire Wave Freak.
The wave of fire that Mr. Clerk mentioned as so sharply defined that it seemed to be on one side and not a hair was on the other side of the animal.

I walked for half a mile through the ruins of St. Pierre yesterday and saw not less than 1,500 dead bodies. They plainly showed the effect of the burst of fire that surrounded by gas flames.

The volcanic fury of the flood of fire is shown by the uprooting of trees, some of which are turned upside down. I noticed a lamp post that had been torn up bodily.

Witnessed the cyclone that devastated Porto Rico in 1899, and nowhere did I observe effects of the wind greater than we found in St. Pierre.

A man named Lassagne was approaching St. Pierre when the explosion came. He was with a companion in a carriage drawn by mules.

The mules were killed and the carriage overturned. Lassagne and his companion were thrown from the carriage and were badly burned. The coachman escaped unhurt.

NEW VOLCANO NOW
NEAR MOUNT PEELE.

(Copyright, 1902, by the Press Publishing Company, New York World.)
(Special Cable Dispatch to The Evening World from W. F. Loring.)

ST. LUCIA, May 16.—I passed Martinique yesterday on the steamship Wear. Evidently a new volcano has broken out to the north of Mount Pelee.

In following the usual steamboat course from Dominica to St. Lucia we could see the mountain sending up dense black smoke. As we approached nearer to leeward the land was hidden by a dense smoke, through which a red glow that extended to the water's edge could be seen.

A shower of sand and ashes and a sulphurous smell caused the captain to change the course of the steamer, and we went five miles to sea to avoid the gas.

The captain and his men remained on deck, completely of feeling sick.

After we ran out of the smoke and gas we changed our course and approached St. Pierre. Mount Pelee had evidently thrown out large quantities of lava since I saw it a few days ago.

The appearance of the country was changed. Old ravines had been filled and new crevices appeared in many places.

The destruction is indescribable and on a small view of St. Pierre I found it more ghastly than I thought it last Friday.

W. F. LORING.

HORRIBLE SUFFERING
ON ST. VINCENT.

REMARKABLE SIGHT OF ST. VINCENT, May 16.—A considerable amount of the population of St. Vincent has been killed or injured by the eruption of the volcano.

The death toll is estimated at 1,500. About 1,000 bodies have been buried in the city.

The public health of the island is in a very bad state. The water is contaminated and the air is full of ash.

\$530,000 FOR PUBLIC BATHS.

Favorable Report for Expenditure in Manhattan and Brooklyn Submitted to Board of Estimate.

The Board of Estimate and Apportionment held an all-day session today. There were 175 members on the calendar, accumulated business caused by the Board having paid entire attention to the budget for 1902 for several weeks.

Bond issues for \$100,000 for a school site at Cannon and Broome streets, \$50,000 for the maintenance of the water supply system, and \$185,000 for acquiring the lands for Fort George Park were authorized.

The bond issue for \$136,371.95 for William Henry Seward Park was reindented, as the Board considered the issue only partially authorized.

Ordinances from the Board of Aldermen requesting an appropriation of \$50,000 for public baths in Manhattan and \$100,000 for three or more public baths in Brooklyn were on the calendar and a report in favor of the appropriation was made.

A communication from President Haffen pertaining to the removal of overhead electric wires on Third Avenue was considered. Mr. Haffen said that the electric wires had been built and there was no reason why the overhead wires should not be removed.

Volcanic Lake Vanishes.
The report that the volcanic lake which occupies the top of the mountain has disappeared appears to be confirmed. A sea of lava, emitting sulphurous fumes, now apparently occupies its place, and several new craters have been formed.

The last time the volcano showed activity, Tuesday last, the crater, old and new, and numerous fissures in the mountain sides discharged hot vapor, deep subterranean murmurings were heard, the ground trembled at times, from the centre of the volcano huge volumes of steam rose and a dense smoke, mingling with the steam, issued from a new and active crater, forming an immense pall over the northern hills, lowering into the valleys and then rising and spreading until it enveloped the whole island in a peculiar gray mist.

WE were first to make seamless gold wedding rings. Numerous imitations of these celebrated rings have since been offered elsewhere, but they contain more or less solder, which destroys the purity of the gold. Buy of us and you are assured of the proper article. Prices \$2.50 to \$15.00. No charge for lettering.

CASPERFELD & CLEVELAND,
144 BOWERY.
BOWERY SAVINGS BANK BLOCK.

OVER \$125,000 FOR
ST. PIERRE SUFFERERS.

Money and supplies for the sufferers in Martinique are pouring into the hands of Cornelius N. Bliss, who is acting as treasurer for all the organizations active in the work of succor.

Over \$125,000 has already been contributed up to noon and the generous stream is being steadily augmented. In marked distinction is the showiness with which the relief funds in Paris and London are growing.

Even in Paris, where the Martinique people would naturally look for aid, the sum total of all contributions does not amount to more than \$50,000.

At noon, the Fourth National Bank, which is the headquarters of Treasurer Bliss, announced that \$50,000 in cash had been contributed of this amount \$20,000 came from the Chamber of Commerce, \$30,000 from the National Relief Association and \$1,000 through the Merchant's Association. It was estimated that up to the time for the bank to close \$60,000 more had been taken in through the three sources.

In addition to this large amount of money, the Standard Oil Company has contributed \$75,000 worth of supplies, which make the total more than \$125,000.

Among the largest contributors through the Chamber of Commerce since Monday yesterday are the American Sugar Company, \$10,000; Fred. O. Reinecke, \$10,000; J. Henry Smith, \$10,000; Morris K. Jolley, \$10,000; J. C. Gouge, \$10,000; John S. Kennedy, \$10,000; Phelps, Dodge & Co., \$10,000; Harvey Fisk & Co., \$10,000; Kuhn, Loeb & Co., \$10,000; John L. Riker, \$10,000; J. Kennedy Tuck, \$10,000.

Through the National Relief Committee some of the largest contributions were:

Mrs. A. A. Anderson, \$500; L. Henry Schwab, \$500; W. Bayard and R. Fulton Cutting, \$500; United States Express Company, \$500; Max Nathan, \$500.

The contributions through the Relief Committee were smaller individually but more numerous and from all parts of the country.

Rupture
32 YEARS' PRACTICE.

No ruptured man or woman can afford to risk his or her health by experimenting in the treatment of a rupture by using improper trusses, which will only aggravate the trouble.

FANCY a man paying custom tailor prices if nobody knew it but himself.

Almost his last excuse is gone—now that his size can be had in the Kirschbaum Hand-Made clothes.

Better than ordinary merchant tailoring—so much like the best, you're as likely to mistake one for the other as the other for one.

Ask the clothier—persist in the idea of the little linen label—Kirschbaum Hand-Made—in side breast pocket of the coat.

\$12 to \$25. Get your size.

THE HECHT WAY
is a different way—a new way to many and a vastly appreciated way with those who have already seen fit to test our credit offers. That we DO meet the lowest prices of the greater cash houses—that we more often UNDERSELL these same concerns—is a claim that has never failed in test and gains power with each day.
Wait until you've done your buying and know prices, then tell the salesperson to CHARGE your purchase. It's not a favor any more than your privilege to breathe in the store.

Best Clothing Scoop
LANDED THIS YEAR!
Certain big clothing house in dire straits forsh crossed our path—lucky meeting. He figured that one good-sized check in his hand was better than two well-filled stockrooms at his factory. We figured that our 40c, looked bigger to him than his dollar in clothing, and it did. The result is too apparent for such persuasion. What we paid for bulk you pay for piece.
Every collar on every garment is hand made, every buttonhole shows the skill of a trained tailor. You will find among 'em the new idea of a two-button double-breasted sack suit. There's a goodly number of blacks among 'em.
The overcoats are silk faced, another style silk lined throughout. The overcoats are in black and white mixtures that cannot be found duplicated anywhere.
At \$18 and \$20 the suits are marvelously good values.
At \$22.50 the same can be said of the overcoat.
We extend to you this rare value of values with credit payment privilege for.....

Lucky Boys' Clothing Deal.
Fresh from the workshop of Greater New York's greatest boys' clothing maker. "The manufacturer needed the money"—that's the whole why and wherefore. Two piece Double Breasted, Norfolk and House styles, made up of special chevots, cassimere and serges. The tailoring is of a nature that you seldom see in your buying hunts, and the fit of each garment is separately guaranteed. Clothing that no retailer will duplicate under \$5.00, and even \$6.00 in most cases. Saturday, yours.....

Good-By Price on Boys' Coats. **Our Women's Jacket Prize.**
We've more Spring Weight Top Coats and Reversers on hand than might be judged good policy. Hence this event for the little fellow: Covert Cloth Coats, good looking, made up great \$10.00 value, and just as many Boys' Serge Reversers Coats that could win five dollars of your money. Now, then, do you think of choosing the one you want.....
